

## What Else Do You Want to Know about Domestic Violence or Abuse?

There are some very good community resources in Pinellas County to help you with violence-related problems. Tell your teacher about other things you want to learn. Talk with others in your class. Do you want someone to come and talk with your class about violence?

Your teacher can help to arrange for someone to talk to your class.

Write any questions you still have about domestic violence.  
Or write about how you help your family to be nonviolent.

---

If you don't want to write, draw a picture of either violence or nonviolence:
