Any interested party may use this material. Modify it, copy it, and share it. But you may not sell it or post it on your website without permission of UMCM and the author. It is our hope that, the more resources are shared, the more all of our county's educational opportunities can be strengthened—for all of us.

This project was partially funded through a Florida Department of Education, Division of Community Colleges and Workforce Education, grant.

THIS IS THE STUDENT TEXT

The Teaching Notes are in a Separate Document

Intentionally Blank

Contents

NOTE: each unit has its own page numbers. This is because some groups will want to print units as individual pieces.

Credits (includes additional Internet resources)	12

About the Curriculum Designer

Martha A. Lane has been involved in community-based ESOL (English for Speakers of Other Languages) and literacy projects since 1966. She has held a variety of certifications from ProLiteracy America, including ESOL Supervising Trainer. She served as a member of the Core Knowledge Group for the National Institute for Literacy’s ESL collection at www.eslcollection.org for several years and has been consultant/designer for a variety of computer-assisted and Internet-based ESOL projects.

Marti co-authored the *Laubach Way to English Series* and has written more than a dozen curricula since its publication. Most of her current work is based on Howard Gardner’s Theory of Multiple Intelligences. This series for Pinellas County was inspired by *PEACE (Process for English and Civics Education)*, for which she served as curriculum designer and writer (see www.caliteracy.org/education/esl-civics/index.com). She currently is retired, but still does some freelance ESOL work, mostly curriculum writing and online training.

Marti welcomes your ideas, suggestions and criticisms about this series. Her email is: marti4lit@verizon.net.
